Improper Anchoring, Strong Winds, Rain, Snow, or Ice

King Canopy/ PIC America, LTD. does not guarantee these canopies under strong weather conditions. These canopies are designed to protect against sun, light rain, tree sap, birds, etc. They are not designed to hold roof loads that accompany snow, ice, or heavy rains. If your canopy is not anchored securely, strong winds can lift a canopy and cause damage if it is blown over and/or away. If your canopy is anchored incorrectly and is blown away, we are not responsible for any replacement or damages. If you know strong weather is predicted, remove the cover or take down the unit completely. The cover is designed to be quickly and easily removed.
